The amount of net tax supported debt in this report does not include claims and judgments, accrued compensated absences, pension costs, other post-employment benefit costs or other liabilities of the state. Those obligations are detailed in the state’s Comprehensive Annual Financial Report (CAFR), which is available from the Division of Finance of the Department of Administration or online at www.wvfinance.state.wv.us/cafrgap.htm.

The net tax supported debt calculation in this report includes GO bonds, revenue bonds of the School Building Authority which rely on an annual appropriation from the general revenue fund for debt service, Lottery Revenue bonds, Excess Lottery Revenue bonds and lease obligations of various state agencies.

GENERAL OBLIGATION BONDS

Approximately \$315.1 million (net of escrowed bonds) of West Virginia’s \$1.57 billion in outstanding net tax supported debt as of December 31, 2015 consisted of GO bonds. Over the years, West Virginia has issued GO bonds for road construction, school construction, veterans’ bonuses and infrastructure development. All of these bonds carry a pledge of the state to levy taxes if funds are insufficient to meet debt service. Outstanding GO bonds include roads bonds and infrastructure improvement bonds.

The last GO bond amendment approved by West Virginia citizens was on November 2, 2004. The eight million dollar authorization was to provide a cash bonus to veterans who served in Kosovo, Afghanistan or Iraq. To date, no bonds have been required to make the bonus payments.

Due to a refunding in April 2015 which provided an "up front" cost savings, the combined debt service on all Safe Road bonds is only \$11.1 million for fiscal year 2016. The debt service returns to approximately \$23 million for fiscal year 2017 through the final maturity in 2025.

As of December 31, 2015 the GO Road bonds will mature as follows:

All of the bonds are repaid from a dedication of the first \$22.5 million of coal severance taxes and the taxing pledge of the state to meet any deficiencies. All GO infrastructure bonds that were authorized by the Infrastructure Improvement Amendment have been issued. There are currently no remaining authorizations for the issuance of GO infrastructure bonds; however, refunding bonds may be issued. The state refunded more than \$75.8 million of GO Infrastructure Bonds in January 2015. This refunding resulted in a Net Present Value (NPV) savings of 12.6% of the par amount of the bonds refunded.

The combined debt service on the GO infrastructure bonds for fiscal year 2016 is approximately \$22 million. It remains at that level until fiscal year 2018 when it drops to \$21.8 million. The debt service returns to approximately \$22 million in fiscal year 2020 where it remains at that level until all bonds mature in November 2026.

As of December 31, 2015 the GO Infrastructure Improvement bonds will mature as follows:

The bonds were issued in fiscal year 2012, 2013, and 2014 and will mature in fiscal years 2027, 2028, and 2029 respectively. The principal outstanding on these bonds was \$69.5 million as of December 31, 2015.

The three series of Qualified School Construction Bonds (QSCBs) issued by the West Virginia School Building Authority were issued as "bullet" bonds which means that they are not subject to optional or annual mandatory sinking fund redemption prior to maturity. However, the bonds are subject to extraordinary mandatory redemption under certain circumstances.

Excess Lottery Revenue Bonds - In August 2008, the School Building Authority issued \$102.1 million in bonds that are secured through a pledge of revenues from the State Excess Lottery Revenue Fund. These bonds represent the first issue that the School Building Authority authorized utilizing the Excess Lottery Revenue Fund. As mentioned on page two, the most recently issued bonds provided for a partial advance refunding of the 2008 bonds and "new money" for the cost of acquiring, contracting, equipping, and improving Brooke County Middle School.

The School Building Authority has also issued Excess Lottery Revenue Bonds as Qualified School Construction Bonds (QSCBs). These bonds are different in structure because the interest on the bonds is paid by the federal government in the form of tax credits. All three series of QSCBs were issued with a "bullet" maturity which means that there is only one maturity date. The School Building Authority utilizes excess lottery revenue funds to make monthly payments into a sinking fund which will redeem the bonds at their "bullet" maturity date. In November 2011, the state refunded these bonds by issuing more than \$3.6 million of revenue refunding bonds at a true interest cost of 3.06%.
