

Debt Position Report

Update: September 30, 2016

One of the most important measurements of debt for a state, city, county or any other municipal bond issuer is the amount of net tax supported debt outstanding. The State of West Virginia had a net tax supported debt of \$1.57 billion as of September 30, 2016.

The net tax supported debt calculation does not include claims and judgments, accrued compensated absences, pension costs, other post-employment benefits costs or other liabilities of the state. Those obligations are detailed in the state's Comprehensive Annual Financial Report (CAFR) available from the Division of Finance of the Department of Administration or online at www.wvfinance.state.wv.us.
